

CCSU PSA, you're on notice!

PSA, I am sick and tired of your progressive, left-wing, do-gooder agenda. Remember folks, the best way to change the system is to wait until it changes. There is no reason to take action against the Bush administration, war, globalization or homophobia. Hey, there's nothing wrong with being gay. I have plenty of friends that are going to hell. All I'm trying to say is we shouldn't second guess our leaders. Oedipus ruined a great sex life by asking too many questions.
