

Club Web Application

We understand and agree to the following policy in exchange for access to the CCSU Student Club and Organization World Wide Web Server:

- The WWW Server is available only to recognized student clubs and organizations in an active status, as listed in the Student Organization Records System as maintained by the Student Activities/Leadership Development Office. Organizations not continuing to maintain an active status or maintain active pages will not have pages served.
- Pages housed on the server are for club business only. No personal pages are permitted.
- Organizations posting pages must agree to abide by all policies and laws as listed in the most current Student Handbook, Computer Use Policy, local, state and federal laws. Hence, any issues of content liability will be handled by the University judicial process or local legal system.
- The Student Center will not provide training to clubs and organizations in the use of HTML code, FrontPage or FTP utilities to post pages and graphics on the server. University courses, ITS one-day courses and books are available. Information on how to access supporting services will be provided.
- One person must be designated as the club webmaster by the club president to be responsible for posting the pages to the server. This person must have a University Windows NT / e-mail account, as access is granted via NT permissions. This account may not be used by anyone other than the club authorized webmaster as listed below.
- Re-application for access to the server will occur a minimum of once each academic year.

This Student Club WWW Server is provided through the efforts of the Student Center, Information Systems, Administrative Affairs, Student Affairs and the Student Activities/Leadership Development Offices.
